

LETTER: JoAnne Robertson 'will always put you first' in Bernardsville

EDITOR: The Republicans chant "U.S.A., U.S.A., U.S.A." because we are patriots, love our country and love having candidates and elected officials who stand for the flag.

Read your history books. Who: 1) Fought to free slaves; 2) had nothing to do with the KKK; and 3) fought for desegregation? Republicans, yes Republicans.

Democrats have not fought for all Americans. Perhaps that is why Republican candidates are special. They support all lives and the betterment of all lives. Republicans today are vocal about that for which they stand. Don't take us out of context or manipulate the truth for the sake of furthering your agenda.

One candidate for Bernardsville Borough Council is JoAnne Robertson and I support her and hope you will as well.

Her background is so well rounded and this is an asset for the council. Her business experience includes working on Wall Street, in healthcare, real estate, and education and being a small business owner. Each of these will contribute to the success of our town.

JoAnne lived here from 1993-2006, moved away and returned recently because her family had the opportunity to move back to the area she loved. She will always put you an American first, because she is a Republican. She will answer questions so feel free to reach out: bvillegop.com and click on contact.

All emails will be kept confidential.

Is JoAnne a whole bunch of sentences taken out of context, or is she that caring person who believes freedom is important and that our town needs to be free, safe and prosperous? Does JoAnne have the experience to research town projects and relay ideas and information to the council?

I think so, so I am endorsing JoAnne Robertson for Borough Council. Be an educated voter, talk to the source.

BARARA LONG

Lloyd Road
